

Wealth and Rebellion: A Dualistic Perspective on Income Level and Revolutions

Data description

This document contains a variable list and labels for the analysis. The descriptive statistic can be found in the Supplementary Online Materials.

Variable	Description
iso3c	ISO3c code for countries
year	Year
region	Subregion UN classification
NVC_1.3_NONVIOL	Nonviolent revolution from NAVCO 1.3
unarmed.rev.q	Nonviolent revolution (Beissinger's + Goldstone et al. data)
sum.nvc.nonviol	Nonviolent revolutions in the same region (NAVCO 1.3)
sum.rev.q.nonviol	Nonviolent revolutions in the same region (Beissinger's + Goldstone et al. data)
sum.nvc.nonviol_1	Nonviolent revolutions in the same region (NAVCO 1.3) at time t-1
sum.rev.q.nonviol_1	Nonviolent revolutions in the same region (Beissinger's + Goldstone et al. data) at time t-1
cumsum.nvc.nonviol	Number of revolutions in the country's history (since 1950) at year t (NAVCO 1.3)
cumsum.unarmed.rev.q	Number of revolutions in the country's history (since 1950) at year t (Beissinger's + Goldstone et al. data)
polity2_1	Polity score
gdppc.gap.ln_1	GDP pc (2017\$, PPP), ln
BESS_plus_WB_Urbanization_1	Urbanization
WPP_15_24_share_15plus_1	Share of 15-24 population in total adult population (15+)
Mean_year_schooling_interpolated_1	Mean years of schooling
Polity5_durable_ln_1	Regime durability (in years, +1), ln
VDEM_v2x_execorr_1	Executive corruption index
pop_ln_1	Population (in thousands), ln
v2xeg_eqdr_1	Equal resource distribution index
oil.pc.ln_1	Oil production pc (kWh, +0.1), ln
discrimpop_1	Share of discriminated population
polity2_1.sq	Polity score, squared
growth.gap.5_1	Growth of GDP pc, 5-year average
